DETAILED ACTION

1. This action is responsive to communication filed 3/23/06.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 11-22.

Specification page 1 under the title insert

"This application is a divisional of 09/547,559 filed 4/12/2000 now abandoned."

Allowable Subject Matter

3. Claims 2-10, 24-26 and 28-30 (renumbered claims 1-9, 10-12 and 13-15, respectively) are allowed.

The following is an examiner's statement of reasons for allowance for claims 2, 24, and 28. The claims were objected to as being dependent from a rejected claim, however they would be allowable if put in independent form. The claims have been amended to independent form. As to the prior art, it fails to teach the additional features of digitizing dark-field image such that intensity distribution is digitized and arranging the

digitized intensity distribution into a histogram. These features in combination with other limitations are not taught in the prior art. Thus, claims are allowable. Claims 3-10, 25-26 and 29-30 depend on claims 2, 24 and 28, respectively. Therefore are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
